Description:

For more than 28 years CALA has proudly promoted a commitment to Instructional Quality (IQ) via exemplary leadership based on a holistic philosophy. This philosophy encourages instructors to create opportunities for participants to experience the joy of movement in water by carefully integrating opportunities for the mind to discover, the body to move and the spirit to soar. "Feast on Form" offers a wonderful opportunity for Aquafitness instructors to improve the quality of 'on deck' movement execution skills from a mechanical and mindful perspective.

Objectives

- 1) Infuse your movement demonstration skills with greater purpose, precision and strength.
- 2) Enrich your leadership language with cues designed to deepen awareness of correct musculoskeletal alignment while consciously directing energy from 'heels to head' and leader to participant.
- 3) Discover how attention to subtle detail embedded in all of the CALA Base Moves has the potential to command focused attention from your participants.
