

Take your voice and music to the participants. The Aqua Buddy can not go in the water, but is extremely sweat resistant. Instruct in dry exercise rooms and in humid Yoga rooms. Available now from CALA, this is the answer to your Sound System needs.

PORTABLE SOUND SYSTEMS AQUA BUDDY

The **AQUA BUDDY** is the ultimate, top-of-the-line portable sound system. This unit is designed to be used with our submersible body pack transmitter and heavy-duty waterproof head-worn microphone. This great sounding system rolls easily to the poolside with its large caster wheels and retractable handle. Instruct from the deck or **IN THE POOL**.

* Consider purchasing an extra cable for the Aqua Buddy or the Brat. If the microphone needs repair, simply put on the replacement cable and you are up and running immediately with no downtime. There is no need to send the entire mic in for repair, just return the cable for repair for a minimal charge.

Features:

- Handles crowds up to 1000!
- Operational While Charging
- Rechargeable Gel Cell Batteries
- Retractable Handle and Wheels
- Heavy-Duty Waterproof Microphone
- CD Player (with Pitch Control)
- Transmitter that comes with the AQUABUDDY is SUBMERSIBLE**

Options:

- Cassette Player (with Pitch Control)
- Splash Cover
- UHF Handheld Microphone
- * Replacement Cable

THE BRAT

THE BRAT portable sound system offers great sound in a small package. This 16-channel UHF wireless system is capable of handling crowds of up to 100 and weighs only 13 lbs. A CD player (with pitch control) is included. **THE BRAT** can be powered by either AC or its rechargeable gel-cell battery. The head-worn microphone is not water-proof and can not be worn in the water, however it is sweat resistant.

Features:

- Excellent Sound
- AC or Rechargeable Battery
- CD Player Included
- 13 lb; 11"x 8¾"x 8½"
- The Brat-H2O Headset with Detachable Cable
- Transmitter that comes with The Brat is NON-SUBMERSIBLE**

Options:

- Padded Carrying Case
- * Replacement Cable
